

# SECOND SUNDAY

**Supplies:**  
Paint  
Vegetables  
Paper

## **Veggie Prints Project**

Inspired by Jasper Johns

ANDERSON COLLECTION  
AT STANFORD UNIVERSITY

**Cantor**

**1:** Choose a vegetable and cut it in half.

For this example we are using a potato. But any veggie will be fun to use.

**2:** Cut a shape into the potato.

Veggies like celery and cabbage already have interesting shapes.

**3:** Pour some paint onto a plate.

Tempera paint works well.

**4:** Dip veggie into the paint.

Cover the surface of the shape you want to print.

**5:** Press painted veggie onto the paper.

Make a **PRINT!**

**6:** Repeat the printmaking process and have fun experimenting!

Make patterns, overlap shapes and mix colors on your paper.

**Share your artwork!**  
Printmaking allows artists to make multiples of their artwork.

Make lots of prints to give to friends and family as heartfelt gifts or holiday cards!
