

Fabulous Food Faces

Let's look
closely at shapes.

Some faces are round, some square, and some are oval shaped. The parts of the face can be seen as shapes too. The nose can be a triangle, eyes look round and oval and the mouth can be made with a combination of shapes to create different expressions. Look for food that you think looks like parts of a face. Don't forget the eyebrows and ears!

Directions

Step 1. Find a plate to use as the base or head shape for your portrait. Or, use a slice of bread or pizza dough that you can build on.

Step 2. Gather some food such as fruits and vegetables.

Step 3. Arrange the food on your plate to create a face.

Step 4. Take a photo of the face or portrait that you made.

Step 5. Save any edible pieces of food to eat at your next snack or meal time.
